New Library service—BookLink Web

In addition to our existing library services, the Blind Foundation has recently launched a new service called BookLink Web. From this website, you can now download audio books in DAISY format directly from the library collection, as well as recent issues of audio magazines and newspapers. You can even play our content straight from a Web browser on your home computer. For those who are more technologically inclined, the downloaded content can also be played on other portable devices, such as the Victor Reader Stream, or the Plectalk DAISY player familiar to many of our Blind Foundation clients.

BookLink Web also lets you manage your own user profile, just like the current version of the BookLink app for Apple devices. By selecting your favourite topics and subjects from the headings in our catalogue, a list of suggested books will be updated for you in the website. This is handy when you have subjects that you like, but do not know of specific books that you want to read. You can then simply read those recommended titles without having to search, or skip them and get more suggestions.

Of course, we are also developing further resources to support people using the Library services. As well as guides in the website, available in accessible formats, we are working on creating YouTube videos and doing remote training using tools like Skype. However, it is not all about the technology, and we will be helping to grow our local book clubs and peer support networks as well.

If you would like to know more, get in touch with us on 0800 24 33 33 or email Booklink@blindfoundation.org.nz

Blind Foundation collaborates with 2degrees in technology partnership

Blind Foundation clients, who are on the 2degrees mobile network, can now download their favourite magazines and books on the BookLink app without worrying about the cost of data.

BookLink, available from the Apple app store, provides access to more than 14,800 audio books in the Blind Foundation's digital library, along with magazines, national and regional newspapers.

As a first step, 2degrees has offered free data used by Blind Foundation clients who access its BookLink app on the 2degrees' mobile network. 2degrees CEO Stewart Sherriff says it's great to be using 2degrees' national mobile network to help people in a tangible way, in this case helping the Blind Foundation's BookLink members enjoy the library. "The app's a terrific advancement that allows people to read books on demand. Allowing free access on the data used to obtain these publications seems only fair".

Blind Foundation CE Sandra Budd says, "Partnerships like this are a great example of how we can work with other organisations in an innovative way to improve services and support for New Zealanders who are blind or have low vision".

To learn more about this offer please contact the library on library@blindfoundation.org.nz

SuperSeniors newsletter

The Blind Foundation is now recording the SuperSeniors newsletter. These are available as a magazine on DAISY CD and TIS menu 65. This newsletter is emailed regularly to SuperGold cardholders and includes news for and about older New Zealanders. For example the October edition covers the International Day of the Older Person, latest data from the Business of Ageing 2017 update, a life-changing way to get around with a disability, financial advice on fraud, how to apply for a rates rebate, and more. To receive this please contact us on 0800-243-333 or email library@blindfoundation.org.nz

Sir Arthur Pearson Fund Guide

The Sir Arthur Pearson Memorial Fund is a trust fund operated under the umbrella of the Blind Foundation. It was established in 1923 from the proceeds of a public appeal for funds to aid both civilian and war blinded persons. The main object of the fund is the aftercare of the blind.

The Library has available in DAISY the guidebook for members to review before making applications. It sets out the history of the fund along with relevant information about how the fund works. Book number 97239. The guidebook is also available on TIS at Menu 33.

Update on studio recordings

NZ sport compilation is being split into three separate recordings. As the studios are now recording fuller versions of the three magazines in the NZ Sports Compilation and due to member requests, we will stop recording the NZ Sports Compilation as one and split it into three new subscriptions:

- NZ Rugby World
- NZ Fishing News
- Wilderness

This change will happen at the start of 2018. Members already subscribed to this will now be subscribed to all three magazines by default. If you want to change your subscriptions please contact the library on 0800 243333 or email us at library@blindfoundation.org.nz

Feedback on narrators welcome. The Studios team welcomes feedback on any elements of their work. Some books have been found to have less functionality than expected and are currently being repaired. If you come across any, please let them know. Please contact Joe Gilfillan: audio@blindfoundation.org.nz

Christmas closing dates

The last despatch day for library books to be sent in the mail will be on Wednesday 20 December 2017. To ensure you have enough books for the Christmas break please have your requests in by Friday 15 December 2017. The magazine studio will be closed during the Christmas break with the last magazines recorded on Thursday 21 December 2017. Full library and studio service will resume on Monday 8 January 2018.

On behalf of the Library and Accessible Format Services staff, we wish you a very happy Christmas, and look forward to providing you with great reading material in 2018.

Book Discussion Scheme (BDS) book group

The Blind Foundation Library and the BDS have an arrangement where Blind Foundation members do not pay a membership fee to be part of a BDS book group.

Having poor eyesight does not mean you cannot be part of a book group, according to a Far North reader, Jean Dowson.

Jean coordinates a Book Discussion Scheme book group that has been going for 22 years and has seen one long-term member, Jenny MacMurdie, transition to using audio books as a way to maintain her involvement.

"Jenny didn't want to leave the group, because it's a friendship group as much as anything else!" says Jean.

"She's been an avid member of our book group for I can't remember how long, so this has meant she could participate so much more."

Each time a book parcel arrived from the BDS office, Jean let Jenny know what title the group was reading next. Jenny would then contact the Blind Foundation and receive an audio version to listen to, which would allow her to be familiar with the book by the next meeting of the group and join in discussions about it.

"I would highlight the books that she could get from the Blind Foundation and we put those titles as priorities on our group's booklist," explains Jean.

Her all-female book group has drawn its members from rural locations on the outskirts of Whangarei. They are all affiliated with the University of the Third Age and travel up to forty minutes to get together for their once-a-month, Thursday afternoon book discussions. Those who no longer drive, car-pool with the "younger" retirees.

"We're all widely scattered but people make the effort. We have a very, very tight friendship," says Jean.

To help book groups identify titles that BDS and the Blind Foundation have in common, the catalogues of both organisations have been cross-referenced. About 40% of BDS titles are available as audio books.

These titles are identified in the printed version of the BDS Catalogue with an ear symbol. Groups can search the online catalogue, in the Books section of the BDS website, using the category "Blind Foundation book".

If you want to join the BDS book group, please contact Megan Blakie on 033656210 or email megan@bds.org.nz

The Library would like to let all book group members know that there is a chance that you may receive the same title from the library twice. Book group reading lists are processed outside our automatic allocation system, which has an inbuilt function that stops dual allocation. We apologise if this happens.

Many thanks to our generous sponsors

We would like to express our appreciation to the people and organisations that have kindly sponsored books for the Library since the previous issue of Sound and Touch. These funds have helped to make print material accessible to people who are blind or have low vision and without their generous support, it would not be possible to add more new titles to our Library.
